Innovation has a name.

Voltex 50 Gal Heat Pump

- Most energy-efficient heat pump water heater on the market
- Built-in communications port enables connectivity to home management applications via smartphone/tablet/PC
- Multiple operating modes to match heating requirements to environmental conditions
- Quiet operation

Important! New NAECA Guidelines Take Effect April 16, 2015

The upcoming revision to the National Appliance Energy Conservation Act will impact the design of most new water heaters. Under the new NAECA regulations most water heaters will be larger, requiring more space for installation.

Visit <http://www.torrco.com/important-naeca-guidelines-takes-effect-april-16-2015/> for more information.

ProPress Fittings System!

ACCEPT ONLY THE ORIGINAL Viega ProPress

- Preferred method for joining copper tubing in a fast, safe manner.
- Pressing pipe connections saves time and labor compared to traditional soldering
- Patented Smart Connect feature allows missed and unpressed connections to be identified easily

- Suitable for potable water, heating, gas, solar, and fire protection systems.
- Available in hundreds of configurations and sizes ranging from 1/2" to 4"
- ProPress fittings require a Viega or Ridgid press tool to secure a successful connection
