

**Federal Income Tax Credits for Energy Efficiency  
Residential Heat Pumps**

A number of tax credits for residential energy efficiency have been renewed and are available for purchases made in 2016, as well as retroactive to purchases installed in 2015. ENERGY STAR® products eligible for tax credits are independently certified to save energy, save money and protect the environment.<sup>1</sup>

Taxpayers claiming a credit for Qualified Energy Property should retain this Certificate Statement for their records.<sup>2</sup>

This certifies that the HVAC system models listed below meet the requirements for the Federal Tax Credit and may qualify for the tax benefit in the 2015/2016 tax years.

**Table 1 – Qualified Single Zone Systems<sup>3</sup>**
