## ZoomLock is a copper press fitting approved for HVAC refrigerant applications.

- Uses a patented Hydrogenated Nitrile Butadiene Rubber (HNBR) O-ring
- Fittings are specifically designed for use with a ZoomLock press jaw
- Suitable for use with most the most popular refrigerants
  - Due to the chlorine in R-22, a special fitting using a Neoprene O-ring has been developed.
- May also be used for water and Glycol applications

## Hydronic Perimeter Baseboard Radiation Heat Simple Installation - Quiet Operation - Superior Performance

- Hydronic heating doesn't dry out the inside air like forced air systems.
- Gentle convection warms the full length of cold walls and windows.
- Rooms are easily zoned for individual control, resulting in lower fuel bills.
- A dedicated heating system has none of the compromises of a combined heating/cooling system.
