PURE WATER by WATTS CHECK US OUT

- WATER QUALITY PRODUCTS BY A MANUFACTURER YOU KNOW AND TRUST
- BROADEST LINE OF PRODUCTS FOR RESIDENTIAL / LIGHT COMMERCIAL
- CONVENIENT CROSS REFERENCE TO OTHER MANUFACTURERS
- DEDICATED SALES AND TECH SUPPORT STAFF
- RESIDENTIAL DRINKING WATER SYSTEMS
- REPLACEMENT FILTER CARTRIDGES AND HOUSINGS
- ONE FLOW SCALE SOLUTIONS
- UNDER COUNTER FILTER SYSTEMS

WATTS®

WHY SPECIFY CHARLOTTE PIPE'S CHEMDRAIN® CPVC CHEMICAL WASTE DRAIN SYSTEM?

Here are the top three benefits:

- **EASY INSTALLATION** - CPVC pipe is lightweight and requires no special tools for cutting.
- **MAINTENANCE FREE** - Once a CPVC system is properly selected, designed and installed, it is virtually maintenance free. It will not rust, pit, scale, corrode or promote interior buildup.
- **CHEMICAL RESISTANCE** - High resistance to a broad range of acids and caustic chemicals when properly diluted by flushing with water.

Purchase **FOUR** Honeywell T4 or T6 thermostats and receive a **Honeywell Duffle Bag!** (6/1-6/30)

High-Efficiency Circulators and Water Heater Leak Protection From Taco

007E F2 ECM High-Efficiency Circulator

- High-efficiency ECM motor uses up to 85% less electricity
- Ideal for hydronic systems zoned with circulators or zone valves
- BIO Barrier protects pump from system contaminants
- SureStart automatically frees locked rotor condition and self-purges air from pump
- Integral Flow Check included

REBATES AVAILABLE!

**\$25 IN CT FROM ENERGIZE CT AND
\$100 IN MA FROM MASS SAVES**

0015e3 ECM High-Efficiency Circulator

- 3 easy settings. Install it, forget it.
- BIO Barrier protects pump from system contaminants
- SureStart automatic unblocking and air purging mode
- Uses up to 85% less electricity
- Integral Flow Check included

Taco
Comfort Solutions™

Take Advantage of our HVAC Specials While They Last!

Available until June 30th. See your salesperson for info.

MEET ZOOMLOCK™

FLAME-FREE
REFRIGERANT FITTINGS

10 SECONDS. CONNECTED.

- Ten-second leak-proof refrigerant fitting.
- No fire watch required.
- No brazing. No flame.
- 40 - 60% time and cost savings per job.

LG Vertical Air Handlers offer 4-way configurable unit contractors have the flexibility to install the unit in a way that's best suited for the application.

- Increased design flexibility with configurable 4-way installation
- Energy-efficient operation reduces total cost of ownership
- Features an Electronically commutated motor (ECM) motor making it eligible for a number of rebates
- Wi-Fi capable enabling effortless control using the SmartThinQ app
- Built-in LG Dry Contact allows for easy integration of 3rd party thermostats

CASH IN ON MARS MOTORS

Purchase MARS Motors to receive free **VISA Gift Cards** and a chance to **win ONE of FIVE GRAND PRIZES...**

Thursday, August 30th
from 3:00-7:00PM

The Aqua Turf Club,
Plantsville, CT

- One Day Specials!
- Entertainment!
- Product Displays!
- Show-only Promotions!
- Raffle Prizes & Giveaways!
- Food & Beverages!

If you have been to the West Springfield Town Green, you may have noticed the 9/11 monument with an eternal flame burning. The eternal flame was erected after 9/11 to honor West Springfield native, Melissa Harrington Hughes and all those who died in the tragedy.

The eternal flame for the monument which was built about 15 years ago had seen better days according to West Springfield Mayor Will Reichelt. "When it was originally designed, it wasn't designed to last as long as it has, and over the years it's been on all the time. It suffered some damage and it was time to make some changes and replace it."

Rick Royer of Kleeberg Mechanical was approached by the town of West Springfield to repair the flame and he reached out to Jeff Krawic of Commercial Heating Supply, a division of Torrco and to Dave Pecoraro of Honeywell to get involved. All 3 men jumped on board and donated many hours of their own personal time to design and rebuild the flame using more commercial components for an entirely new burner and control system. All of the controls, valves and flame safeguard system are Honeywell product which were donated by Dave Pecoraro and associates of Honeywell.

Dave Pecoraro used his expertise and his past experience with Olympic torch lights and monuments that he designed for this very unusual application. He donated the majority of the new components for this project at no cost. Jeff Krawic spent his time creating diagrams and functions so that the components would work correctly. Rick Royer was extremely instrumental in the completion of the monument, spending many hours of his personal time on this project. The flame was once again burning in time for the 9/11 West Springfield observance in September 2017 and re-engineered in Spring of 2018.

A big thank you to Dave, Jeff and Rick who volunteered their free time to work on this beloved monument for the Town of West Springfield and the family of Melissa Harrington Hughes.

Thank you to our 2017-2018 Vendor Partners!
