LG Multi VS provides maximized energy efficiency while minimizing operational costs.

Compact yet powerful VRF for private residences and small offices.

Maximized Efficiency

Maximized energy efficiency while minimizing operation costs.

LG's 4th Generation Inverter Compressor

High efficiency inverter scroll compressor with frequency range from 15Hz to 150Hz. Low vibration and reduced noise.

Smart Load Control

Controls refrigerant temperature according to indoor, outdoor and setting temperatures. This optimizes energy efficiency by saving up to 13% and maximizes indoor comfort level.

AutoSnap®
