Your source for all things plumbing, heating piping and HVAC

Torrco now offers

FRESH-AIRE UV

Products

Indoor Air Quality Products for Home & Business

Fresh-Aire UV provides whole-house UV light and activated carbon air purifiers

- Clean the air throughout your home or business because they are installed directly inside your central air system
- Microbes and odors are eliminated as air cycles repeatedly through the system

Comfort-Aire

16 SEER Single or 2-Stage Condensing Units

The Full-Featured Comfort-Aire Is The Right Choice, Right Now.

- 16 SEER exceeds federal energy efficiency standards and assures you substantial energy savings.
- Efficient, two-stage compressor designed to operate at a lower speed for quieter, money-saving operation.
- Permanently lubricated condenser fan motor needs no annual maintenance.
- Outstanding Warranty Coverage - up to 12 years when part of an AHRI-matched system with registration within 60 days of purchase, other limitations apply, see printed warranty for details.

Low Wall Console units are designed for high efficiency, and easy installation. The new Low Wall Console units' capacities range from 9,000 to 12,000 Btu for Single Zone and from 9,000 to 15,000 Btu/h for Multi-zone.

The Low Wall Console unit is ideal for residential and light commercial applications where a more traditional type of unit is not possible due to room design or space constraints. Designed to be installed low on the wall or on the floor.

Special pricing valid 5/1/20 -5/31/20
