

Jason Mancarella HVAC Division Manager

203-814-3161 | jmancarella@torrco.com

Jason has 20 years' experience as a licensed contractor working in the Commercial and Residential field with design, sales, fabrication, installation and service. While in these roles he developed the skills and knowledge needed to work on and install all residential natural gas, LP and oil systems, Commercial rooftop and split systems, heat pumps-both conventional and inverter technology. He also has expertise with sheet metal fabrication, installation of residential, commercial and industrial air systems and all types of hydronic systems including boilers, combis, hydro air units and radiant systems.

Jason has spent over 6 years at Torrco working from inside sales to his current role leading the HVAC Division. He is factory-trained in many of the HVAC products Torrco sells, as well as a trainer and instructor for LG and the ESCO Institute for EPA exams. He currently sits on the LG Advisory board as one of seven members from around the country. This board works directly with LG engineering and technical support management.

He currently manages our HVAC Division and can assist in any and all aspects of the HVAC business including sales support, design, technical and aftermarket support.

EJ Plaza HVAC sales / LG Pro Dealer Administrator

203-558-3820 | eplaza@torrco.com

EJ attended school for HVAC and also earned a business degree from UConn. He has been in the retail industry for over 10 years, in both sales and in management positions. His knowledge, attention to detail, and outgoing personality are the main reasons he is a valued member of the Torrco team. Since joining the team, he has taken leadership in the LG Excellence Program and other LG Dealer Perks' programs. His role is to assist in the enrollment of new dealers and to help dealers streamline their businesses to become more profitable. He has direct connections with LG management for marketing support.

EJ's area of expertise is in LG products, sales, customer and technical support.

Scott Bamford HVAC Product Specialist

475-235-6203 | sbamford@torrco.com

Scott has spent the past 32 years in the HVAC industry performing multiple roles as a S1 contractor, after serving 4 years in the U.S. Navy as a boiler technician working on 1200 psi steam plants. He became a service/installation technician for heating and cooling contractors for 22 years, then moved onto management positions as service manager, install manager, then into chief engineer at a private school. Scott has installed and serviced oil systems, natural and LP gas systems, heat pumps, hydronic and steam systems, ductless splits and cooling systems up to 100 tons.

Scott has been a part of the Torrco HVAC team for almost 2 years and is a vital part of the business growth. He offers top tier tech support in every aspect of the HVAC field and will not rest until a solution to a problem has been reached. His current duties include application support, technical support, system design, radiant design, heat losses and project management.

Andy McHugh HVAC Field Support Specialist

203-465-4218 | amchugh@torrco.com

Andy has spent the last 10 years in residential HVAC Installation & Service and is a licensed technician. He has vast knowledge in residential applications including gas, warm air equipment, refrigeration, gas and vent piping, low voltage wiring, zoning systems, etc. Andy has excellent customer service skills from his time in HVAC service. He will be working in conjunction with Scott Bamford in the design, support and inside sales areas of the division. Andy has also gone through LG VS training and is furthering his education to become an Inverter Technology expert.
