STEAM MAX

The **ALL-NEW SteamMax** gas-fired steam boiler is what you've been waiting for! It's the industry's new benchmark for longevity, efficiency, and flexibility.

- 75-550 MBH (available 12 sizes)
- 82% AFUE
- Unmatched corrosion warranty

Beckett GENISYS 7565 ADVANCED BURNER CONTROL

- Last 50 cycles and last 15 faults history
- Compatible with burners running #2 fuel oil, up to 100% biodiesel, and up to 100% renewable diesel
- Separate inputs for combustion air and blocked vent
- Enhanced diagnostics and programming through the myTechnician® app
- Configurable for interrupted or intermittent ignition operation
- Configurable timings for valve-on delay (or "pre-purge") and motor-off delay (or "post-purge")
- Eight status lights provide hands-free understanding of burner operation
- Pump prime mode for technicians
- Extra terminal for compatibility with smart thermostats

To learn more, scan the code below.

This app offers diagnostics and troubleshooting information with myTechnician compatible devices.
