JASON MANCARELLA

HVAC Division Manager

Jason has 25 years' experience as a licensed contractor working in the Commercial and Residential field with design, sales, fabrication, installation and service. While in these roles he developed the skills and knowledge needed to work on and install all residential natural gas, LP and oil systems, Commercial rooftop and split systems, heat pumps both conventional and inverter technology. He also has expertise with sheet metal fabrication, installation of residential, commercial and industrial air systems and all types of hydronic systems including boilers, hydro air units and radiant systems.

Jason has spent the last 10 years at Torrco working from inside sales to his current role leading the HVAC Division. He is a trainer and instructor for LG and the ESCO Institute for EPA exams. He currently sits on the LG Advisory board as one of a handful of members from around the country. This board works directly with LG engineering and technical support management. He currently manages our HVAC Division and can assist in any and all aspects of the HVAC business including sales support, design, technical and aftermarket support.

ANDY MCHUGH

HVAC Field Support & Design

Andy has spent the last 14 years in residential HVAC Installation & Service and is a licensed technician. He has vast knowledge in residential applications including gas, warm air equipment, refrigeration, gas and vent piping, low voltage wiring, zoning systems, etc. Andy has excellent customer service skills from his time in HVAC service.

Andy works in conjunction with Scott Bamford and Nick Longo in the design and support areas of the division. Andy has gone through All LG Residential and Commercial training and is a field commissioning agent as well.

SCOTT BAMFORD

HVAC Product Specialist

Scott has spent the past 37 years in the HVAC industry performing multiple roles as a S1 contractor, after serving 4 years in the U.S. Navy as a boiler technician working on 1200 psi steam plants. He became a service/installation technician for heating and cooling contractors for 22 years, Scott has installed and serviced oil systems, natural and LP gas systems, heat pumps, hydronic and steam systems, ductless splits and cooling systems up to 100 tons.

Scott has been a part of the Torrco HVAC team for almost 6 years and is a vital part of the business growth. He offers top tier tech support in every aspect of the HVAC field and will not rest until a solution to a problem has been reached. His current responsibilities include application support, technical support, system design, heat losses and project management.

EJ PLAZA

Strategic Account Manager

EJ attended school for HVAC and also earned a business degree from UConn. He has been in the retail industry for over 10 years, in both sales and in management positions. His knowledge, attention to detail, and outgoing personality are the main reasons he is a valued member of the Torrco HVAC team.

EJ's role of Strategic account manager is to identify new and existing companies and assist them in streamlining their businesses to become more profitable and efficient. He has become a trusted member in the LG community and is well versed in all Residential and Commercial inverter business.

EJ is fully certified in all aspects of the LG world and is a trusted resource for Torrco HVAC.

NICK LONGO

HVAC Field Support

Nick is one of the newest member of the Torrco HVAC team. He has a 4 years of HVAC field experience and is a licensed technician.

Nick has a strong background in sheet metal installation and has grown with Torrco HVAC into a trusted LG field commissioning agent, technical support and designer. He is currently working with Andy McHugh for field technical support, layout and design.

We look forward to watching him grow as a trusted resource for the HVAC team and the contractors we serve.

ZACH DeCOLA

HVAC Outside Sales

Zach came to us from with knowledge of many aspects of the residential real estate market and has family in the trades.

He joined us in the fall of 2022 and has been undergoing a multitude of trainings to prepare him for his role as HVAC outside sales which he will begin in the Spring of 2023.

Zach's personality and desire to please will be instrumental in his journey to assist his accounts that will stretch from New Haven, CT to Port Chester, NY.

He is a great communicator and will do whatever is needed to assist the companies he is assigned to.

Keep an eye out for him in your area!
