Honeywell Home

T10 ProSmart WIFI Thermostat with Room Sensor

- Room sensors allow you to prioritize specific rooms based on motion detection or your choice.
- Controls humidification, dehumidification or ventilation.
- Energy saving through time-based scheduling and geofencing.
- Multi-room display allows the homeowner to see temperature of rooms at a glance.
- No RedLINK gateway required. Connects to WIFI and control through Honeywell Home app.
- Easy wiring with UMP mounting system.
